

ABEILLE MAISON
TENT HOUSE
[W]

LUXURIOUS HEDONISTIC

CONNECTION WITH NATURE

SMART - COMPACT - LUXURIOUS - NATIVE

paneks 

I nspiration

In searching for the perfect harmony between beauty and functionality, one need only look to Nature for inspiration. Bees possess an amount of patience close to perfection, which allows their remarkable building know-how to come to life in the form of complex structures. They construct the delicate honeycomb with the help of tools and skills governed by the laws of Nature. Inspired by this inexhaustible source of genius, we created the Abeille Maison W Winter Glamping Tent using only the finest natural materials in order to provide you with an extravagant setting in which to savor an intimate connection with Nature.

The ABEILLE MAISON - TENT HOUSE embodies a new, fresh and clever way of luxurious winter camping. An exclusive blend of technical refinement and luxurious ambiance, the Abeille Maison W is a unique glamping tent designed for relishing the outdoors in the colder months, when Nature is less welcoming. Thanks to its unique furnishings and heating system, you can allow yourself to be enamored by an immense feeling of coziness, even off camping season. The mobile tent house is manufactured entirely in our facilities, under the careful supervision of an experienced engineering and design team.

A hint of art takes center-stage in the form of a stunning chandelier akin to liquid honey, designed by the contemporary artist Marta Pop Antoska-Bashevskva

Furniture with sculptural lines, upholstery and detailing. Luxurious, high-pile fabrics and traditional, rich geometric patterns - the epitome of sophistication, infusing opulent materials such as velvet, warm wood and rich tones to create an ambiance that is impossible to resist

Enjoy the comfort of a spacious three-part bathroom, equipped with all the amenities necessary for a grand atmosphere

Balance is achieved across the design elements to ensure an exclusive interior that is both fabulously refined and wonderfully comfortable. Stone double sinks with vanities sit just opposite the illuminated wardrobe fitted with glass doors.

The tent is equipped with all the necessities needed to relish a cold winter's night: a heating system with fireplace, fan coilers and heated towel rails, en-suite shower, lounge seating, small wooden-leather bar with all essential appliances, electric lighting with rustic chandeliers enhancing the warm winter ambient, a grandiose king-size bed intricately decorated, fully transparent jelly cover at the front entrance, as well as an outdoor hot tub with digitally controlled pump and soft touch control panel.

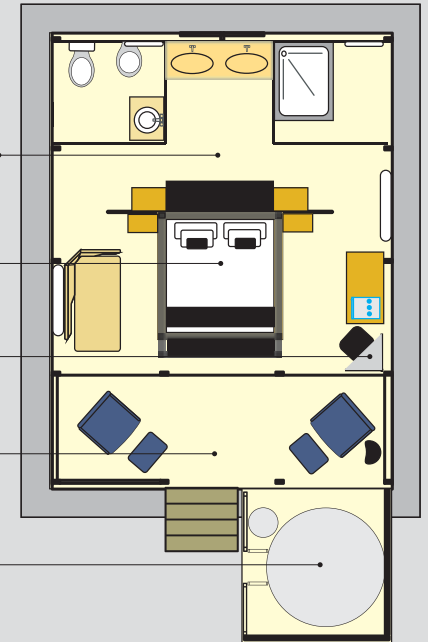

Three-part bathroom - classic toilet, separate shower area, stone double sinks with mirror / wardrobe with glass doors

Lay back and unwind in a king-size bed, breathing in the view through a see-through, jelly screen made from specialized materials. Immerse yourself in an air of opulence, relaxing in the warmth of your sheets with the snow falling against the tent canvas. The headboard and sofa upholstery, embellished with tufting and a decorative trim, exude an air of coziness and comfort.

We

execute the entire construction and service solutions and offer our furniture, accompanied by a high class quality control throughout the entire manufacturing process. The process follows the ISO 9001:2015 standard certified by the Lloyds Register Quality Assurance, and is augmented by our experience and the certification for Event Sustainability Management System ISO 20121:2012 and ISO 14001:2015.

The ABEILLE MAISON - Tent House is a superb product which is both cost and operationally efficient for resort operators.

You can rely on our team to turn your ideas into reality, with the help of our flexible project management, design and architectural services, which are flexible providing you customizable accommodation and revenue development services.
